This has to be such a weird and challenging year to have a film festival. Yet, the Brooklyn ScFi Film organizers did a GREAT job with the virtual fest. Looking forward to next year.

The background of the entire page is a composite image. On the left, there is a low-angle shot of a stone suspension bridge tower, likely the Manhattan Bridge, with its intricate architecture and cables visible. On the right, there is a close-up of an astronaut in a white spacesuit, sitting and looking towards the left. The astronaut's helmet is reflective, and the suit has various patches and equipment. The overall color palette is muted, with a purple/blue tint over the entire image.
